

WELCOME

To Cloud Foundations Virtual Bootcamp

Week 8 - Session 1

Duration: 2 Hours

From Learning to Career

CLASS INSTRUCTOR

Emmanuela Oporum
Solutions Architect

www.linkedin.com/in/cloud-architect-emma

GitHub

www.linkedin.com/in/cloud-architect-emma

LEARNING OBJECTIVES

- Host a CV/portfolio using GitHub Pages
- Build a simple professional tech portfolio
- Find volunteering opportunities
- Find internships and entry-level opportunities
- Find programmes that help you gain practical experience
- Build your career after the bootcamp

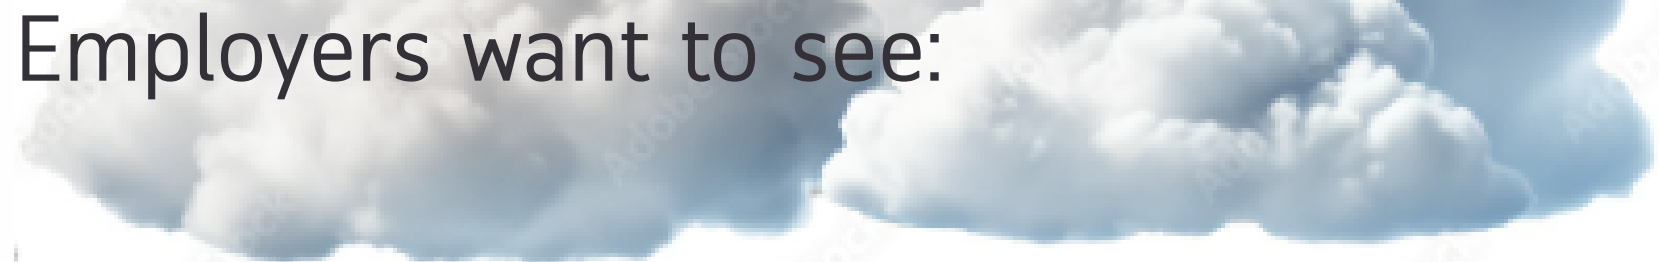

RECAP OF SESSION

YOU HAVE LEARNED. NOW SHOW IT.

Employers want to see:

- What can you build?
- What have you worked on?
- Can you solve problems?
- Can you explain what you built?
- Where can they see your work?

Your GitHub + CV + LinkedIn + Portfolio = Your Digital Career Profile

WHAT IS GITHUB PAGES?

GitHub Pages allows you to turn a GitHub repository into a live website.
You can use it to host:

- Your CV
- Portfolio
- About Me page
- Projects
- Technical documentation
- Personal website

GitHub Pages is available with GitHub Free for public repositories.

HANDS-ON: CREATE YOUR GITHUB WEBSITE

FINDING EXPERIENCE

Why Volunteering Matters

VOLUNTEERING PLATFORMS

AWS FREE TIER REMINDER

Always

- Delete all resources.

Avoid unexpected charges.

SECURING YOUR AWS ACCOUNT

Immediately after logging in:

- Enable MFA
- Never share Root Account credentials
- Use IAM users instead of the Root User

I will cover IAM in detail later in the bootcamp.
